TO WHOM IT MAY CONCERN,

Subject: Confirmation of Equivalency for VLITEX Premium Car Fire Blankets and Padtex Car Fire Blankets

We hereby confirm that VLITEX Premium Car Fire Blankets, starting from size 5m x 5m, are equivalent in specifications and performance to the Padtex Car Fire Blanket with article number PAD-CFB-M-1, in compliance with DIN SPEC 91489-2024 standards.

The VLITEX Premium Car Fire Blanket has been produced and rigorously verified to meet all requirements specified under DIN SPEC 91489-2024, ensuring its suitability and reliability for automotive fire containment applications. This equivalency in performance parameters includes but is not limited to:

- Fire resistance and containment effectiveness
- Material composition and durability under high-temperature conditions
- Deployment ease and coverage suitability for automotive fires

The VLITEX Premium Car Fire Blanket, size 5m x 5m and larger, meets the same safety, durability, and operational standards as the Padtex model PAD-CFB-M-1, and is suitable for equivalent applications in vehicle fire safety and emergency response scenarios.

Should you require further technical documentation or have additional inquiries, please feel free to contact us.

Sincerely,

Andre Schwiontek

CEO / padtex@padtex.lv / phone: +371 64221341

Padtex Insulation SIA, Cempu 27, Valmiera, LV4201, Latvia

This confirmation is issued to assist in verifying product equivalency for compliance, procurement, and operational requirements.
