EVO2/3™ CR2 REFLECTIVITY KIT

GUIDE TO APPLYING THE STICKERS TO THE HELMET

Match the numbered stickers on the diagram to the right to the ones on the enclosed sheet. Then match them with the photographs and place the stickers on the area of the helmet as shown.

CLASS R2
HIGH INTENSITY
REFLECTIVE MATERIAL

EVO2/3™ CR2 uses Class R2 a high intensity reflective offering offering, on average, 60% more reflectivity than standard reflective clothing material (dependant on the observation and light angle).

EVO2/3™ CR2 is the biggest step-up in night time visibility / reflectivity of head protection to date. Conforms to Class R2, EN12899-1 (High performance reflective sign face material)

Sticker 9 is optional.
It will not fit with bespoke printed helmets.
