

# 3.2 M - 10.5 FEET / 5.4 M - 17.7 FEET TELESCOPIC LANCES

The **5.4 metre - 17.7 feet and 3.2 metre - 10.5 feet long extendable lances** are designed to carry out spraying work at height, allowing effortless cleaning in areas that are difficult to access, such as cleaning building facades, roofs, office windows, cleaning large vehicles, removing hornets' nests, treating palm trees, caterpillars, removing moss from roofs, etc.

These lances have been designed with fibreglass for greater lightness, control and precision in the application of the product. They can be attached to backpack sprayers and pressure sprayers thanks to the spraying adapter included. Moreover, its folding by sections makes it easy and comfortable to transport.

Do not use with acids or aggressive solvents.
